PRESENTING A NEW TYPE OF WALLET
THAT PROTECTS AGAINST FRAUD IN THE NEW WI-FI ERA.

SANTHOME
SECURITY FOR YOU

How the card holder protects?

The aluminium Cardprotector protects your most important plastic cards not only against bending and breaking, but also against malicious parties reading your RFID and NFC cards. RFID (Radio Freqency IDentification) cards contain a chip and an antenna for wireless communication.
Examples of RFID cards include the Travel card, ID cards, the latest generation of credit cards and bank cards, as well as various access passes.

Using the Cardprotector

The Cardprotector can hold a maximum of 7 cards. If only embossed cards are used, the capacity is 5 cards. Position the cards you use the most at the back or front and they will slide out sufficiently to be used. Slide out the cards with ONE movement of the slider on the side. The radio signal, although still greatly reduced, will now be sufficient for contact over a short distance. This means that you can use your RFID-NFC cards easily and securely. After use, slide your cards back into the Cardholder by pressing down on them lightly.

PREVENT e-PICKPOCKETING with **PROTECTION**

RFID: New Technology, New Theft Potential

Designed to be used with PayPass, public transit scan systems

RFID chip makes personal information card scannable

Scanner sends signal to card

RFID Radio Frequency Identification

Info on ID transmitted: name, ID/ account numbers

RFID chip activated by signal

ePickpocketing: RFID Danger

Scanners activate RFID chips

Scans done while walking by no contact

Pickpockets make portable scanners

Tourist destinations, transit stations, airports, and large crowds are target areas

Financial/ID information stored on scanner

Victims don't know until signs of theft appear

Emptied transit card or bank account, fraudulent charges

Does Your Card Have an RFID Chip?

blink)))
payWave or blink® logo

May still have RFID if no logos

Cards likely to have RFID

Credit / Bank Cards   Transit Cards   Driver's Licenses

All U.S. Passports Issued since Oct. 2006

Common Access Cards

ePickpocketing Solution: Identity Stronghold Protection

Our Santhome card holder blocks portable scanner signals

Prevent RFID chip activation and info transfer

Caution - Promoclips do not cut fingers & papers. Are you sure about other brands ? Buy only the original.

Promoclip original

Finish your precious correspondence with an original Promoclip carrying your own logo. More and more companies decide to distinct themselves this way.
A Promoclip matches your corporate identity perfectly and offers space to print your logo and to promote your website or slogan.
Promoclips are easily put on paper by giving it a gentle twist. Each clip has been carefully smoothened to avoid possible damage to the paper.
Also the patented bends on the back of the clip enable you to put on a clip without using any force.

ML Clip original

ML Clips are considerably larger than Promoclips and offer enough space to print a product photo or state your complete company details.
Not only its size, but also its strenght is unique: an ML Clip holds 2 to 35 sheets of paper together!

This clip is really one of a kind. Available with digitally printed labels or laser engraving.

CUSTOMISED

XL Clip original

The XL Clip safely holds together bank notes, credit cards and receipts. Carrying a solid laser engraving, the XL Clip offers sufficient space to show your logo and even a message.

Give your client an XL Clip as a 'thank you' and he will think back of you frequently.
Obtainable in a semi-transparant give away box, offering space to leave your business card as well.

Already available as of 50 pieces.

Real Leather A4 Folder

eco-neutral

ECO-FRIENDLY LEATHER
Leather Tanned
the Ancient way, now forgotten......
Before industrialisation, leather was tanned using
secretions from barks of trees (no chromium or aluminium
salts/chemicals were used). This slow & eco-friendly way has been
completely forgotten in today's fast-paced quick-profits world.
This eco-friendly real leather collection has been tanned
in a way that caused minimal damage (almost nil...)
to the environment. Also cotton lining have
been used to enhance the
eco-friendliness of products to above 95%.
