A	28	29	30	29	30	31
B	21	22	23	22	23	24
C	8	8.5	9	8.5	9	9.5

These measurements are for guidelines only. The actual measurements may vary slightly between garments as knit garments have internationally accepted higher tolerance values

## GSM or GMS ?

Most manufacturers confuse clients with this. GSM: Grammes per sq. meter is the wt. of the fabric in a square of 1 meter x 1 meter. it remains the same in all sizes. Hence the correct way to describe GMS: is the wt. in grammes per piece of the Tee/Polo And will always vary with each size.

Thus, completely misleading. We ALWAYS specify the GSM. So you are rest assured of what we offer.

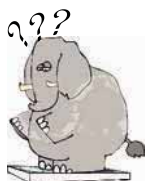

## Heavier the better ?

Not necessarily. The quality of yarn will decide the quality and Price.

Super combed, combed, semi combed and carded: this is the quality of YARN in descending order.

We specify the yarn. So you are rest assured of what we offer.

"ORCA" is found in Antarctica and Arctic oceans. Also called 'Killer Whales', it is the largest of the Dolphin family. They are beautiful, intelligent, fast, strong and yet the most social of all sea animals! They are said to have great tolerance in varying temperatures. That is the reason they enjoy world-wide distribution. Most interestingly, it's the only species in the world that has both the male and the female offspring stay with their mothers and immediate family forever...!

These wonderful creatures have inspired us to bring to you exclusive polos. Their 'killer look', beauty, sheen and lustre is attributed to the MERCERIZING process. The premium cotton rich material makes it extremely comfortable in all climatic conditions. The collar, cuff in the birdie configuration sets new standards in their making. The bold loop stitches all over the hems and shoulder make them unique and yet resilient. Finally just as the ORCA, this polo will stay with you for long time to come.

Shouldn't then it be called the ORCA POLO?"
